SUMMARY

Full Stack Developer and AI Automations Engineer. Skilled in problem-solving and creative development, with a strong interest in AI-powered software development.

EDUCATION

BS Computer Science	University of Central Punjab	March 2020 – Jul 2025
---------------------	------------------------------	-----------------------

SKILLS

Languages	C, C++, C#, Python, HTML/CSS, Javascript/Typescript, SQL(Postgres/MySQL), Mongo
Tools/Frameworks	Unreal Engine 5, Node.js, React.js, Express.js, ASP.NET, Git/GitHub, Postmen, MERN stack (MongoDB, Express.js, React.js, Node.js), SQL, JWT, OAuth, REST APIs, HTML/CSS, Bootstrap, Tailwind CSS, n8n, Make.com, Vapi, Supabase, GHL

EXPERIENCE

Media Buyer – Freelance	2018 – Present
-------------------------	----------------

Meta Ads, Google Ads, Tiktok Ads

- Managed and optimized paid advertising campaigns across Facebook, Instagram, Google Ads, and TikTok, generating consistent ROI for clients.
- Worked with multiple 6-figure brands such as HarlanMD, SpoiledMama and Rockay.
- Developed and executed data-driven marketing strategies that increased conversions while reducing ad spend.
- Combined marketing expertise with automation tools to build AI-assisted ad workflows that save time and improve performance.

Game Development(FYP)	Sept 2024- June 2025
-----------------------	----------------------

Unreal Engine 5, Blueprints, C++

- Designed and implemented gameplay systems including objectives, interaction mechanics, and progression logic.
- Worked extensively with level design, lighting, and sound to build immersive player experiences.
- Optimized gameplay features through iterative testing and integration of AI-driven elements.

PROJECTS

DevConnect (Social Media Platform) View Live	GitHub
--	------------------------

React.js, Node.js, Express.js, MongoDB, HTML, Tailwind CSS, Ustash, JWT, Framer.Motion

- Developed a full-stack social platform for developers using React frontend, Node.js/Express backend, and MongoDB for data storage.
- Implemented user authentication with JWT and secure login/signup flows.
- Built dynamic post feeds, allowing users to create, like, and comment on posts.
- Managed CORS and deployment configurations for seamless operation.
- Leveraged React Router for client-side routing and TailwindCSS/DaisyUI for responsive UI design.

FlowDo (Personal Project)	GitHub
---------------------------	------------------------

React.js, Node.js, Express.js, MongoDB, HTML, Tailwind CSS

- Built a full-stack task management web app enabling users to create, edit, mark complete, and delete tasks in real time
- Designed a RESTful API using Express.js and Node.js for efficient task CRUD operations.
- Strengthened understanding of the MERN stack and hands-on experience with state management and API integration.
