SUMMARY

Full-Stack Developer with hands-on experience building web applications using modern frontend and backend technologies. Comfortable working with APIs, authentication, databases, and creating clean, responsive user interfaces.

EDUCATION

BS Computer Science

University of Central Punjab

March 2021 – Jul 2025

SKILLS

Languages C, C++, C#, Python, HTML/CSS, Javascript/Typescript, SQL(Postgres/MySQL)

Tools/Frameworks Node.js, React.js, Express.js, Django, ASP.NET, Git/GitHub, Postmen, SQL, JWT, OAuth, REST APIs, HTML/CSS, Bootstrap, Tailwind CSS

EXPERIENCE

Performance Marketing and Analytics — Freelance

2018 – Present

Meta Ads, Google Ads, Tiktok Ads

- Managed and optimized paid advertising campaigns across Facebook, Instagram, Google Ads, and TikTok, generating consistent ROI for clients.
- Worked with multiple 6-figure brands such as HarlanMD, SpoiledMama and Rockay.
- Developed and executed data-driven marketing strategies that increased conversions while reducing ad spend.
- Combined marketing expertise with automation tools to build AI-assisted ad workflows that save time and improve performance.

Academic — Ecommerce Website

ASP.NET MVC, C#, SQL Server, HTML/CSS, JavaScript

- Built a full-stack e-commerce application using ASP.NET MVC and C#.
- Implemented core features including authentication, product management, cart, and order flow.
- Developed backend logic and database integration using SQL Server.
- Applied MVC architecture principles to ensure clean, maintainable code.

PROJECTS

DevConnect (Social Media Platform) [View Live](#)

[GitHub](#)

React.js, Node.js, Express.js, MongoDB, HTML, Tailwind CSS, Upstash, JWT, Framer.Motion

- Developed a full-stack social platform for developers using React frontend, Node.js/Express backend, and MongoDB for data storage.
- Implemented user authentication with JWT and secure login/signup flows.
- Built dynamic post feeds, allowing users to create, like, and comment on posts.
- Managed CORS and deployment configurations for seamless operation.
- Leveraged React Router for client-side routing and TailwindCSS/DaisyUI for responsive UI design.

FlowDo (Note Taking App)

[GitHub](#)

React.js, Node.js, Express.js, MongoDB, HTML, Tailwind CSS

- Built a full-stack task management web app enabling users to create, edit, mark complete, and delete tasks in real time
- Designed a RESTful API using Express.js and Node.js for efficient task CRUD operations.
- Strengthened understanding of the MERN stack and hands-on experience with state management and API integration.
